

# AN URGENT NEED FOR HELP

Raisa is 63 years old and lives in Shepetovka. She was born and raised in a Jewish family. They experienced much worry, trouble and persecution because of their Jewish roots. She also experienced personal tragedy when her beloved daughter died in an automobile accident. Now Raisa and her husband are legal guardians of their 8 year old granddaughter, Asia. In 2007 Raisa had an operation to remove a kidney. During her stay in hospital she was unknowingly infected with hepatitis C. The process began that has led to advanced cirrhosis of her liver. Her health problem has only just now been diagnosed. To save Raisa's health and life medicine is needed. One series of medicine is sufficient for one month and costs \$500 (about 1900 zł). Raisa needs to take this medicine for the next six months.

***Everyone who would like to help save Raisa's life we ask to send financial help through our bank account. Please designate the funds: "Help for Raisa".***
